Net Asset Value Methodology

In accordance with the terms of the Fund's Trust Deed, distributions to unitholders are at the Trustee's discretion. The fair value reserve relating to unrealized gains on the fair value of financial assets is considered by the Trustee to be distributable when realized and therefore does not rank for immediate distribution.

- **Net Assets Attributable to Shareholders** = Total Equity + Fair Value Reserve – Undistributed Surplus
- **Net Asset Value Per Unit** =
$$\frac{\text{Net Assets Attributable to Shareholders}}{\text{Number of units outstanding}}$$

Disclosure(s):

- 100% of the Net Asset Value of this Fund is represented by Long positions
- The investment summary reflects the holdings as at the date specified. This is subject to change due to ongoing portfolio transactions. Quarterly updates are available.
